highly preferred.

**AGE:** Not more than 35 years, can be relaxed for deserving case.

**CATEGORY:** 1 – General.

**EXPERIENCE:** Experience Candidate is highly preferred.

**FIX PAY:** Rs.18,000/- P.M.

### 4. HEAD – INFORMATION TECHNOLOGY------ (1-Post)

**QUALIFICATION:** Full time B.E. – IT/Computers or MCA from a recognized University.

**AGE:** Not more than 45 years, can be relaxed for deserving case.

**JOB BRIEF:** The IT Head would be responsible for the smooth running of GCRI's computer

systems and IT infrastructure. He or she will supervise the implementation of new hardware and software resources, and maintenance and support of existing ones. He or she would also manage the IT department staff, and interface with existing and potential IT vendors. All this would be done in accordance with Government

of Gujarat and hospital rules.

**EXPERIENCE:** (1) 10-15 years of relevant experience in information technology management roles, with the majority at hospitals or medical institutions.

- (2) Deep experience of IT management in the medical domain, including familiarity with specialized medical software and its interfacing with other systems. Experience with end-to-end ERPs such as SAP, Oracle, or equivalent, or dedicated Hospital Information Management Systems (HIMS).
- (3) Proven experience in planning and implementing hardware and software rollouts, including user training and efficient resource reallocation.
- (4) Proven experience of leading large IT teams with different specializations to service multiple user departments.
- (5) Experience in drafting, negotiating, and closing tender contracts with IT vendors, for both one-time purchase and ongoing support and maintenance. Experience in purchasing and managing different kinds of software licenses.
- **(6)** Knowledge of Central and State Government sourcing & procurement rules, and other applicable regulations.
- (7) Knowledge of fundamental and current information technology concepts. An advanced degree in IT or management desired.
- (8) Analytical ability to process large amounts of data, and draw insights to optimize asset allocation and new asset purchase.
- (9) Understanding of data centre management and data governance will be an advantage.

#### **RESPONSIBILITIES:**

- (1) Design, implement and coordinate systems, policies and procedures for hospital-wide IT infrastructure, in partnership with senior management.
- (2) Manage information technology assets, such as networks and computer systems on a day-to-day basis.
- (3) Manage IT staff by recruiting, training and coaching employees, and appraising their performance against previously communicated expectations.
- (4) Interface regularly with user department heads to ensure their needs are being met. Understand their long-term needs and plan proactively.
- (5) Perform IT vendor management. Participate in tender drafting and negotiations to ensure best quality, price, and timely delivery for required IT hardware and software. Ensure support and maintenance of existing assets on an ongoing basis.
- (6) Ensure in advance that new hardware and software acquisitions would interface with legacy systems and databases as required.
- (7) Plan and manage data backup systems and protocols, utilizing both on-site and cloud applications.
- (8) Develop metrics to measure system and network usage on an ongoing basis. Use these to optimize resource allocation regularly.
- (9) Create and communicate privacy and security policies to all users in a user-friendly manner. Periodically audit systems to ensure network security, and adherence to defined policies.
- (10) Allocate annual IT budget in accordance with institute and Govt. regulations, and ensure cost effectiveness and audit compliance.
- (11) Focus on strategic aspects of IT: continuously monitor the software and hardware landscape for new and disruptive technologies. Benchmark performance against other hospitals. Track and report key utilization metrics to senior management, making a business case for acquiring new resources where required.

**PAY:** Negotiable.
