

GCRI seeks a distinguished and visionary leader to spearhead its team as it continues to build its world-class reputation in cancer prevention, treatment, community engagement and research.

Gujarat Cancer and Research Institute (GCRI), an autonomous body, has been a hub for advanced cancer treatment and an indispensable component of India's cancer research programme serving a patient population spread across Gujarat and the neighbouring states for over 5 decades.

Reaching out to more than 300000 new patients annually, GCRI has some of the best infrastructure for cutting-edge treatment. The institute employs a team of over 1000 care givers and conducts research that reflects a comprehensive approach to understanding the causes of cancer. In the last five years, GCRI has launched several initiatives like the Gujarat Cancer Atlas - the mobile cancer screening in the far flung areas of Gujarat.

GCRI seeks a visionary, high-energy and recognised leader to serve as Director of the institute.

- He/She should also be able to inspire the team of cancer researchers and clinicians, and broad leadership skills that have been demonstrated over time
- He/She will strengthen and execute the institute's strategic plans that align with the country's vision for the fight against cancer
- He/She will have to grow the institute's medical services, recruit, and retain the next generation of doctors, coordinate more effective research outcomes and significantly strengthen the institute's sustainability
- Together with its experienced team, the Director of the Institute will develop and execute a strategy that enables GCRI to lead in the next generation of cancer prevention, treatment and research
- The Director shall be responsible for the day-to-day administrative operations of GCRI and will report to a Board constituted under Public Private Partnership
- He/She shall be responsible for providing overall direction and management, operational planning, administrative coordination and implementation of programmes
- He/She should mentor and guide the large team of doctors and clinicians in providing exceptional care
- He/She should grow the institute's medical services, recruit, and retain the next generation of doctors, coordinate more effective research outcomes and significantly strengthen the institute's sustainability

Qualifications include a doctorate or post-graduate degree in medicine from a reputed college or university or a combination of education and experience in managing a multispecialty medical group. Operational leadership in the Oncology service line would be an added advantage. Candidates must have excellent oral and written communication skills.

GCRI ranks among the leading institutions in public health nationally. The research facilities of the institute were ranked amongst the top ten institutes in India by an independent group of doctors. The Institute provides a highly competitive compensation and comprehensive benefits package.

Applicants should submit a letter of application including curriculum vitae alongwith photograph and names with contact information of three references.

Please send your application to :

Executive Chairman, Gujarat Cancer & Research Institute

'Zydus Tower', Satellite Cross Roads, Ahmedabad 380015. INDIA
